

Q1. The Medical Board of Australia is consulting on three documents aimed at regulating aspects of cosmetic surgery. These documents have been developed following an independent review of the regulation of medical practitioners who perform cosmetic surgery that raised serious concerns about the cosmetic surgery sector.

You are invited to have your say about:

- Draft *Registration standard: Endorsement of registration for cosmetic surgery for registered medical practitioners*
- Draft revised *Guidelines for medical practitioners who perform cosmetic medical and surgical procedures*
- Draft *Guidelines for medical practitioners who advertise cosmetic surgery*

This submission form is intended for organisations and registered health practitioners. Consumers are welcome to provide feedback here but there is a separate submission form with specific questions for consumers.

The questions here are the same as in the Medical Board's consultation paper. Submissions can address some or all of these questions. You can skip questions if you don't have any feedback and there is an opportunity at the end to make additional comments.

The consultation paper, including the three documents, is available on the [Medical Board website](#).

Definition

Cosmetic medical and surgical procedures (as defined in the Medical Board's *Guidelines for registered medical practitioners who perform cosmetic medical and surgical procedures*) are operations and other procedures that revise or change the appearance, colour, texture, structure or position of normal bodily features with the dominant purpose of achieving what the patient perceives to be a more desirable appearance.

Major cosmetic medical and surgical procedures ('cosmetic surgery') is defined as procedures which involve cutting beneath the skin. Examples include: breast augmentation, abdominoplasty, rhinoplasty, blepharoplasty, surgical face lifts, cosmetic genital surgery, and liposuction and fat transfer.

Q24. Publication of submissions

The Board generally publishes submissions on its website to encourage discussion and inform the community and stakeholders. The Board accepts submissions made in confidence. These submissions will not be published on the website or elsewhere. Submissions may be confidential because they include personal experiences or other sensitive information. A request for access to a confidential submission will be determined in accordance with the Freedom of Information Act 1982 (Cth), which has provisions designed to protect personal information and information given in confidence. Please let us know if you do not want us to publish your submission, or want us to treat all or part of it as confidential. Published submissions will include the names of the individuals and/or the organisations that made them, unless confidentiality is expressly requested.

Q9. Draft Registration standard: Endorsement of registration for cosmetic surgery for registered medical practitioners

The details of the requirements for endorsement are in the [draft registration standard](#).

Q10. Q1. Are the requirements for endorsement appropriate?

The requirements proposing the endorsement for Cosmetic Surgery are viewed by the CPCA to be largely appropriate. The CPCA does however have some reservations regarding the draft registration standard for Guidelines for Cosmetic Medical procedures which are elaborated upon in the appropriate section of this feedback

Q11. Q2. Are the requirements for endorsement clear?

Yes, for the Draft Standards for Cosmetic Surgery, but not for Cosmetic Medicine

Q12. Q3. Is anything missing?

See comments below

Q13. Draft revised *Guidelines for medical practitioners who perform cosmetic medical and surgical procedures*

The Board is proposing changes to its 2016 *Guidelines for medical practitioners who perform cosmetic medical and surgical procedures*.

The details of the revised guidance are in the [draft revised Cosmetic Guidelines](#).

This question was not displayed to the respondent.

Q14. Q4. Are the proposed changes to the Cosmetic Guidelines appropriate?

This question was not displayed to the respondent.

Q15. Q5. Does splitting the guidance into sections for major and for minor cosmetic procedures make the guidance clearer?

This question was not displayed to the respondent.
