

Pathways diagram for re-entry into practice

Effective from: 24 September 2017

The Board will consider your application for general registration on a case by case basis and may decide to require:

- a period of supervised practice
- additional CPD to be completed, and/or
- further education or assessment of competence.

Registration standard: Recency of practice minimum hours:

- 750 hours of practice in previous five years
- 450 hours of practice in the previous three years, or
- 150 hours of practice in the previous 12 months.

Have you practised during the last five years?

Yes, and I meet the minimum hours as set out in the Registration standard: Recency of practice (see sidebox)

What is your registration history?

I currently hold non-practising registration

I previously held general registration but am not currently registered

I have never been registered

Complete and submit Application for general registration as an occupational therapist for current non-practising registrants (AGNP-96).

Complete and submit Application for general registration as an occupational therapist (AGEN-96).

Yes, but not the minimum hours as set out in the Registration standard: Recency of practice (see sidebox)

What is your registration history?

I previously held general registration but am not currently registered

Complete and submit:

- Application for general registration as an occupational therapist (AGEN-96)
- Form: Supplementary information form, and
- current curriculum vitae (CV).

No

What is your registration history?

I currently hold non-practising registration

I previously held general registration but am not currently registered

I have never been registered
