Ms Cara Miller
Chair
Medical Radiation Practice Board of Australia
c/o ahpra.secretariat@ahpra.gov.au

Dear Ms Miller,

Thank you for your correspondence of 3 August 2022 requesting the Ministerial Council retire the Supervised practice registration standard (SP registration standard).

The Health Ministers Meeting (HMM) members agreed to retire the standard as proposed from 31 March 2023, replacing it with the multi-profession Supervised Practice Framework which will apply to medical radiation practitioners from 1 April 2023.

Thank you for facilitating this transition and engaging with registrants to ensure a smooth transition. It is important that comprehensive information is provided, and all relevant stakeholders are made aware of the changes including health sector employers, education institutions, peak bodies, registrants and potential registrants, particularly overseas trained practitioners seeking assessment to work in Australia and current students.

For any enquiries regarding the HMM decision, please contact the National Health Secretariat, on (02) 9461 7900 or nationalhealthsecretariat@health.nsw.gov.au.

Yours sincerely

Hon Yvette D'Ath MP
Chair
Health Ministers Meeting
7/12/2022
