

Registration standard: Provisional registration

Effective from: 1 December 2025

Summary

This registration standard sets out the Psychology Board of Australia's (the Board) requirements for provisional registration for psychology.

An individual may be granted provisional registration so they can complete a period of supervised practice as a requirement to then be eligible for general registration as a psychologist.

Does this standard apply to me?

This standard applies to all applicants for provisional registration and applicants for renewal of provisional registration.

Qualification

The minimum qualification necessary to be qualified to apply for provisional registration is a four-year accredited sequence of study in psychology completed in the last 10 years, or a sequence of study that, in the Board's opinion, is substantially equivalent to an approved qualification.

Eligibility

Applicants must meet the following eligibility requirements, in addition to being qualified to apply for provisional registration:

- a. the individual must be a suitable person to hold provisional registration as a psychologist under the Health Practitioner National Law, as in force in each state and territory (the National Law)
- b. the individual must not be disqualified under the National Law or the law of a co-regulatory jurisdiction from applying for registration, or being registered in the psychology profession
- c. the individual must meet all other requirements stated in an approved registration standard for the psychology profession that apply to provisional registration,¹ and
- d. the individual needs provisional registration in order to complete one of the following programs of supervised practice:
 - i. enrolment in a Board-approved qualification accredited as a fifth and sixth, or fifth to seventh year of study², or
 - i. a Board-approved 5+1 internship program – comprising a Board-approved qualification accredited as a fifth year of study, followed by a Board-approved internship in accordance with the requirements of a Board-approved 5+1 internship program plan,³ or
 - ii. a Board-approved 4+2 internship program in accordance with the requirements of a Board-approved 4+2 internship plan,⁴ or
 - iii. a Board-approved transitional program as specified by the Board.⁵

A provisional psychologist is not allowed to carry out dual pathways; that is, mixing components of two different pathways to make up a six-year sequence of study. In addition, further training will not be accepted as having completed the requirements of an approved pathway leading to general registration.

Maintaining provisional registration

Provisional registration must be maintained for the entire duration of the supervised practice program. This is applicable for all pathways, including while awaiting the outcome of an application for general registration.

Higher degree candidates must maintain provisional registration from the start of enrolment and for the duration of enrolment in any component of an accredited qualification. This includes coursework, practical and research thesis, unless granted general registration before completion of the doctoral thesis.

Provisional registration must be renewed annually. When renewing registration, provisional psychologists need to declare that they are completing a program of study or supervised practice that requires provisional registration.

1. Refer to section 38(1)(a)-(e) of the National Law and the Psychology Board of Australia's registration standards at www.psychologyboard.gov.au/Standards-and-Guidelines/Registration-Standards.

2. Refer to the Psychology Board of Australia's *List of approved programs of study* at www.psychologyboard.gov.au/Accreditation.

3. Refer to the Psychology Board of Australia *Guidelines for the 5+1 internship program*

4. Refer to the Psychology Board of Australia *Guidelines for the 4+2 internship program*

5. Refer to the *Guidelines for transitional programs for overseas-qualified applicants* and the *Policy for recency of practice requirements* for re-entry to practice applicants.

Guidelines and policies are available at www.psychologyboard.gov.au/Standards-and-Guidelines/Codes-Guidelines-Policies.aspx.

Definitions

4+2 internship program means a supervised practice program that is carried out in accordance with a 4+2 internship plan approved by the Board, over a minimum of two years and a maximum of five years, during which the core competencies are developed.

4+2 internship plan means a supervised practice plan on a form approved by the Board that details how the core competencies will be achieved and includes the following components:

- 3,000 hours of internship including:
 - 2,720 hours of supervised psychological practice in a work role approved by the Board consisting of sufficient opportunity to develop the core competencies
 - 1,000 hours of direct client contact
 - 160 hours of psychological supervision with a Board-approved supervisor where at least one hour of supervision is received for every 17 hours of psychological practice, and
 - 120 hours of professional development activities.
- completion of case reports that demonstrate satisfactory development and attainment of the core competencies, and
- submission of six-monthly supervisor reports on progress towards achievement of the core competencies.

5+1 internship program means a supervised practice program comprising an accredited fifth-year qualification followed by an internship carried out in accordance with a 5+1 internship plan approved by the Board. The program requirements are outlined in the [Guidelines for the 5+1 internship program](#).

5+1 internship plan means a supervised practice plan, on a form approved by the Board that details how the core competencies will be achieved in accordance with the requirements set out in the *Guidelines for the 5+1 internship*.

Accredited sequence of study means a program of study including one or more qualifications that have been assessed by the accreditation authority for the profession as meeting the requirements of the accreditation standards developed and approved under Part 6 of the National Law, and subsequently approved by the Board as providing a qualification for the purposes of registration in the psychology profession.

Approved qualification means a qualification obtained by completing an approved program of study which appears on the Board's List of approved programs.

Board means the Psychology Board of Australia established under section 31 of the National Law.

National Law means the Health Practitioner Regulation National Law as in force in each state and territory in Australia.

Provisional psychologist means an individual registered as a provisional psychologist under section 62 of the National Law.

Transitional program means a period of supervised practice stipulated by the Board and any other requirements in order to meet the general registration standard.

Authority

This registration standard was approved by the Ministerial Council on 8 July 2024.

Registration standards are developed under section 38 of the National Law and are subject to wide ranging consultation.

Review

This registration standard will be reviewed at least every five years.

Next review date: January 2029

This standard replaces the previously published registration standard dated 1 June 2017.
