Q8.

Before you answer questions about the guidelines

Please ensure you have read the [public consultation papers](#) before providing feedback as the questions are specific to the revised guidelines for advertising regulated health services.

The following questions will help us to gather feedback about the revised guidelines.

Q9.

How clear are the revised guidelines?

same as the previous guidelines

Q10.

How relevant is the content of the revised guidelines?

somewhat relevant

Q12.

Please describe any content that needs to be changed or deleted in the revised guidelines.

The statement that a "practitioner should also not direct or encourage clients to place reviews". This is inconsistent in aligning the activity to a "practitioner" so that other staff in a business can encourage but not a practitioner seems most odd. It also ignores contemporary social media and website structure. Is having a like or share facebook image illegal on a practice website? That is an encouragement to share information which will promote a practice.

Q27.

Should some of the content be moved out of the revised guidelines to be published in the advertising resources section of the AHPRA website instead?

Yes

No

Q29.

If yes, please describe what should be moved and your reasons why.

Q22.

How helpful is the structure of the revised guidelines?

Lacks clarity with examples of allowable and disallowed content.

Q32. Are the flow charts and diagrams helpful?

Yes

No

Q34.

Please explain your answer.

didnt add to the experience

Q16.

Is there anything that needs to be added to the revised guidelines?

A defination of a review site and explanation as to why they are excluded from the rules when they accept paid advertising for health practitioners.e.g. Google reviews and google takes paid advertising

Q38. It is proposed that the guidelines will be reviewed every five years, or earlier if required.

Is this reasonable?

Yes

No

Q40.

Please explain your answer.

This is out of date with current advertising now

Q24.

Please describe anything else the National Boards should consider in the review of the guidelines.

They are stating things that are unenforceable and not shown relevant to the actual legislation. e.g. practitioner who receive "bad" or malicious google reviews have no choice but to get clients to put on positive reviews to counter act the bad reviews. This happens all the time!!!

Q36.

Please add any other comments or suggestions for the revised guidelines.

Q27.

Thank you!

Thank you for participating in the consultation.

Your answers will be used by the National Boards and AHPRA to improve the *Guidelines for advertising regulated health services*.
