Subject: English language requirement

Dear sir/madam,

I have successfully completed Diploma of Nursing from TAFE [REDACTED]. After the completion of this course i came to know that either IELTS 7 band in all modules, OET A,B in single sitting or 5 years study in Australia and AHPRA approved english speaking countries are required for getting registered with AHPRA. I am a 42 year of old immigrant and father of two kids, i worked hard to achieve this diploma of nursing. Even i follow another 3 years of study in the same field i can finish masters of nursing but i wouldn't get registered with AHPRA my total period of study should be 4 and half years AHPRA required 5 years study to exempt from IELTS. You are kindly requested to review the policy and allow those people who are passed the course in Australia get registered with AHPRA .

Thanking you in anticipation,

[REDACTED]
