My goodness.

What an awful load of CPD (50hrs) you wish to impose on us hard pressed ever declining numbers of GPs... Bureaucracy at its most insane.

You have no empathy for GPs – we self-assess each day, its part of the job.

Patient satisfaction is the truest guide of your competence, so if they don't complain, why overload us?

You have lost all respect, and you don't even read our work. Hypocrisy indeed... Horrible idea.

Your ineptitude is appalling and exceedingly harmful.

Dr Greg Hayes
