## Your responses to the consultation questions

<b>1. Is the content, language and structure of the proposed statement clear and relevant? Why or why not?</b>
<p>The language is appropriate, the structure of the proposed statement is logical.</p> <p>Some minor sentence structure changes to simplify and reduce repetition in the message are suggested: example, the words embed, embedding, embedded are used frequently throughout the document.</p> <p>The proposed statement is relevant to the requirement for an approach to intra-professional, cohesive ways of education, governance, practice, and service delivery that increase positive outcomes for the person accessing health care.</p>
<b>2. Is there anything else the accreditation committee should consider that would be helpful to include in the proposed statement? If so, please provide details.</b>
<p>Given that the statement seeks to be inclusive in its wording and scope consideration should be given to the ensure all populations not mentioned in the statement, i.e. gender, LGBTIQ+, disability, age culturally and linguistically diverse populations as well as Aboriginal and Torres Strait Islander peoples.</p>
<b>3. Do you have any general comments or other feedback about the proposed statement?</b>
<p>Is the Statement of Intent intended to be measurable? – if so, how will it be measured to affirm positive outcomes?</p>
