Subject: English tests for IMG's

Hi:

This would be my suggestion:

1. English test requirements should be removed for IMG's who have been trained as a GP/Specialist(not just primary schooling) in certain countries such as the USA and UK.
Especially IMG's who have RCGP/AB Qualifications- which requires an above average command of the English language.
- 2.English test requirements should be made mandatory to IMG's from countries such as South Africa.
- 3.IMG's from countries such as Malaysia, Singapore, Hong Kong, South East Asia, South Asia should not be considered for exemption from English language requirements(i.e Mandatory English language testing).

Regards
