

# **Supervised practice report**

### Who completes the report?

It is the responsibility of the supervisee to make sure the report is completed and submitted to the National Board via the Australian Health Practitioner Regulation Agency (Ahpra).

If supervised practice is required as a result of a complaint (notification) only the supervisor is required to complete and sign the report. For all other purposes of supervised practice, the report is completed by the supervisor in consultation with the supervisee.

### **Purpose of the report**

The report is a tool to provide progress or monitoring updates and/or as a final assessment report. The purpose of the report will depend on the purpose for supervised practice, e.g. for a registration requirement, eligibility and suitability requirement or as a result of a complaint.

Supervised practice reports are required:

- at the timeframe set out in the conditions or undertakings on registration
- at the timeframes set out in the supervised practice plan, e.g. after one month, three months, six months etc.
- to recommend changes in the supervised practice plan, e.g. a progression in the level of supervised practice
- with applications for renewal of registration by a supervisee
- at the end of supervised practice (where required), and
- · at any other time required by the Board.

### **Definitions**

For information about the meaning of words used in this form such as supervisee, supervisor and patient please refer to the definitions section of the *Supervised practice framework* (framework) on the relevant National Board website:

https://www.ahpra.gov.au/National-Boards.aspx

## How will this report be used?

The supervisor's report will be used by the Board to decide whether the supervisee is:

- practising in a safe, competent and ethical manner
- complying with the approved supervised practice arrangement
- progressing toward eligibility to hold an unrestricted type of registration (where relevant)
- complying with the condition or undertaking on their registration (where relevant).

Depending on the purpose of the supervised practice the report may not be routinely given to the supervisee. However, if the National Board relies on the report to take any further regulatory action in relation to the supervisee, it will need to give the supervisee a copy of the report. Ahpra and the Board may also have to disclose a report if required by law.

Further information regarding Ahpra's privacy policy is available at www.ahpra. gov.au/About-Ahpra/Privacy-Freedom-of-information-and-Information-publication-scheme/Privacy. The privacy policy explains:

- how you may access and seek correction of your personal information held by Ahpra or a National Board
- · how to complain about a breach of your privacy, and
- how your complaint will be dealt with.

## How to complete the report

This report can be used as:

- an interim report on progress or monitoring, or
- a final assessment report.

PLEASE READ THE SECTIONS OF THE REPORT CAREFULLY. The sections of the report that need completing will depend on the purpose of the supervised practice (e.g. registration, eligibility or suitability requirement, following a complaint) and the

reason for the report (e.g. an interim report on progress and monitoring or a final assessment report).

An interim report on progress and monitoring details the progress of the supervisee against the supervised practice plan or supervised practice arrangement. Additional reports may be required if there are proposed changes to the supervised practice plan or supervised practice arrangement or if there are concerns about the supervisee.

A final assessment report is made against the supervised practice plan, or supervised practice arrangement and the profession specific registration standards, capabilities, competencies, thresholds, or standards for practice or other tool (if relevant).

For help when completing the report read:

- The framework explains the principles that support supervised practice, the
  risk factors that will inform the level of supervised practice, the expectations of
  supervisees, supervisors and employers, and the compliance process.
- Appendix 2: Information for supervisees about the expectations of supervisees
- Appendix 3: Information for supervisors about the responsibilities of supervisors
- Appendix 4: Supervised practice levels for a full description of the supervised practice levels.

The framework and appendices are on the relevant National Board website: https://www.ahpra.gov.au/National-Boards.aspx
