Introduction

The functions of the Aboriginal and Torres Strait Islander Health Practice Board of Australia include:

- registering the Aboriginal and Torres Strait Islander Health Practitioners and students
- developing standards, codes and guidelines for the Aboriginal and Torres Strait Islander Health Practice profession
- handling notifications, complaints, investigations and disciplinary hearings, and
- approving accreditation standards and accredited courses of study.

The Board's functions are supported by the [Australian Health Practitioner Regulation Agency](#) (Ahpra). For information about legislation governing our operations see Ahpra's Legislation & Publications at www.ahpra.gov.au/Publications

The Board has analysed its registration data and produced a number of statistical breakdowns about registrants to share with the profession and community. The Board shares these breakdowns regularly. For more information on Aboriginal and Torres Strait Islander Health Practice registration, please see the Board's website: www.atsihealthpracticeboard.gov.au/Registration

Pandemic response sub-register

Ahpra and the Aboriginal and Torres Strait Islander Health Practice Board of Australia established a short-term pandemic response sub-register for up to 12 months (or less if the pandemic subsides) to help with fast tracking the return to the workforce of experienced and qualified health practitioners. The pandemic response sub-register came into effect on 1 June 2020. Eligible practitioners were added to the pandemic response sub-register. These practitioners are included in these statistics. Please see the [COVID-19](#) page on AHPRA's website for more info.
